SUMMARY

Software Engineer and 2026 pass-out targeting Graduate Trainee – Digital roles, with experience building scalable web applications and REST APIs using React.js, Next.js, Node.js, and Express.js. Demonstrated track record of optimizing backend performance, achieving sub-200ms latency, and managing cloud infrastructure handling 50K+ monthly redirects on AWS. Strong collaborative foundation in Data Structures, Algorithms, System Design, DBMS, and CI/CD automation.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, Python, SQL

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, WebSockets, GraphQL, JWT, RBAC

Databases & Caching: PostgreSQL (Neon), MongoDB, Redis

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, Git, Vercel, Render

Core Concepts: Data Structures & Algorithms, System Design, OOP, DBMS, Operating Systems, Computer Networks

EDUCATION

JSS Academy of Technical Education, Noida

Nov 2022 – Jul 2026

B.Tech in Electronics & Communication Engineering

Class XII (CBSE) | 94.6%

2021

EXPERIENCE

Software Developer

Jan 2024 – Mar 2024

Quizzoc

Remote

- Engineered full-stack features via MERN stack, boosting page load speeds by 10% using lazy loading and API optimization.
- Built secure REST APIs and MongoDB models with authentication and logging for platforms serving 50+ monthly active users.
- Refactored reusable React components across 6+ pages, minimizing code duplication and enhancing overall maintainability.
- Collaborated across cross-functional teams via Git branching and pull requests to deliver 8+ feature enhancements in Agile sprints.

PROJECTS

Real-Time Collaborative Code Editor | [Live](#) | [Code](#) | *React, Node.js, WebSockets*

- Led development of a concurrent collaboration engine supporting 10+ simultaneous users with sub-200ms latency.
- Architected event-driven synchronization pipelines, ensuring data consistency across distributed clients.
- Optimized frontend rendering and network calls, boosting system responsiveness and user retention.

LearnMate – AI Career Platform | [Live](#) | [Code](#) | *React, Node.js, Python, MongoDB*

- Spearheaded an AI-powered platform for automated resume analysis and interview prep for 40+ users.
- Integrated secure multi-layer authentication and role-based access control (RBAC) infrastructure using JWT.
- Managed production-grade backend deployment pipelines via CI/CD, achieving 99% system uptime.

URL Shortener (Vynkify) | [Live](#) | [Code](#) | *Node.js, Express, Redis, MongoDB*

- Constructed a reliable URL shortener handling 50+ monthly redirects with robust error handling and monitoring.
- Decreased system latency by 10% via custom Redis caching strategies and targeted database query optimization.
- Devised a distributed unique ID generation mechanism, guaranteeing collision-free key mapping at scale.

CERTIFICATIONS

AWS Certified: AWS Certified Cloud Practitioner

FreeCodeCamp Certified (5x): Responsive Web Design, JavaScript Algorithms and Data Structures, Front End Development Libraries, Back End Development and APIs

ACHIEVEMENTS

Solved 500+ Data Structures & Algorithms problems across LeetCode, CodeChef, and GeeksforGeeks
